

Rajesh Kumar Yadav

Node.js Developer

Email: rajeshky123456@gmail.com | LinkedIn: linkedin.com/rajesh | GitHub: github.com/Rajesh23965

Profile

Node.js-focused Full-Stack Developer with 2+ years of experience building scalable, secure, and high-performance web applications using Node.js, Express.js, React.js, and relational databases (MySQL, PostgreSQL). Strong expertise in RESTful APIs, MVC architecture, authentication, database optimization, and responsive UI development. Proven ability to deliver production-ready solutions, optimize backend performance, and collaborate effectively within agile teams.

Technical Skills

Backend: Node.js, Express.js, REST APIs, MVC Architecture.

Frontend: React.js, Next.js, Redux, Tailwind CSS, Material UI, Bootstrap

Databases: MySQL, PostgreSQL, MongoDB

Languages: JavaScript, Java, SQL

Tools: Git, GitHub, Docker, Postman, Linux (Ubuntu)

Concepts: Authentication & Authorization, API Integration, Data Structures & Algorithms (Basics)

Professional Experience

IT HOME NEPAL PVT. LTD.

Full-Stack Developer | May 2023 – Present

- Designed and developed scalable backend services using Node.js and Express.js.
- Built and consumed RESTful APIs for web applications with secure data handling.
- Implemented MVC architecture, improving code maintainability and scalability.
- Integrated MySQL and PostgreSQL, optimizing queries and improving performance.
- Developed reusable React components for responsive and user-friendly interfaces.
- Implemented authentication, authorization, and validation mechanisms.
- Collaborated with cross-functional teams to deliver features on time using Git-based workflows.

Projects

Library Management System

- Automated book cataloging, circulation, fines, and member management.
- Implemented role-based access and reporting features.

Content Management System (CMS)

- Built a scalable CMS with rich text editor and image uploads.
- Enabled CRUD operations with secure backend APIs.

Billing Web Application

- Developed a full-stack billing system with customer and product management.
- Integrated **Stripe payment gateway** for one-time and recurring payments.
- Implemented automated invoice generation, tax calculation, and dashboards

Console-Based To-Do Application (Java)

- Command-line task manager with CRUD operations, priorities, and due dates.

Education

Bachelor of Information and Communication Technology (BICT)

Tribhuvan University | 2019 - 2024

+2 (NEB) | 2017 - 2019

SEE (NEB) | 2017

Soft Skills

- ◆ *Problem-solving*
- ◆ *Teamwork*
- ◆ *Adaptability*
